PROFILE

Self-driven and passionate web developer with solid experience in building full-stack applications using modern technologies such as React, Node.js, and MongoDB. Former junior developer at PROMES MM with hands-on involvement in Frontend UI development and Backend API integration. Actively expanding knowledge in TypeScript, cloud services (AWS), and development best practices. Seeking an opportunity to contribute to a collaborative and growth-oriented development team.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap, Shadcn/UI, Redux, React Query

Backend: Node.js, Express.js

Databases: MongoDB, SQLite, PostgreSQL

Tools & DevOps: Postman, Git, WebSocket, Prisma ORM, AWS EC2/S3, Nginx, PM2

Other: Problem Solving, Responsive Design, Deployment, Team Collaboration

PROFESSIONAL EXPERIENCE

Self-Taught Full-Stack Developer

Jan 2025 to Present

- Built personal projects that improved full-stack development skills and demonstrated real-world application of web technologies.
- Practiced TypeScript integration in both Frontend and Backend.
- Explored AI tools and packages to enhance productivity.
- Focused on mastering CRUD operations, API consumption, and application architecture.
- Designed and built a restaurant POS and self-ordering system as a personal full-stack project, including admin dashboard, QR-based customer ordering, session/bill management, and role-based access.
